

### SAFETY INSTRUCTIONS

1. Read all safety precautions and installation instructions carefully before installing or servicing this fixture. Failure to comply with these instructions could result in potentially fatal electric shock and/or property damage.
2. It is recommended that all wiring be performed by a qualified electrician. This fixture must be wired in accordance with all national and local electrical codes.
3. Do not handle any turned on fixture with wet hands or while standing on a wet or damp surface.
4. Make sure that the power source conforms to the requirements of the fixture (see labels on fixture housing).
5. To reduce the risk of electrical shock, and to assure proper operation, this fixture must be properly grounded. To accomplish proper grounding, there must be a separate ground wire.
6. This fixture is intended to be used for general outdoor lighting in damp or wet locations.

### NEEDED TOOLS

- Safety Glasses
- Ruler/Tape Measure
- Flat Blade Screwdriver
- Phillips Screwdriver
- Adjustable Wrench
